

RESUME 1: ML ENGINEER / DATA SCIENTIST (NEW)

****SANJAY GUPTA****

Bangalore, Karnataka 560045 | +91-96543-87654 | sanjay.gupta@email.com |
linkedin.com/in/sanjaygupta | github.com/sanjayml

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3.8 years of experience building production ML systems and predictive models. Expert in Python, TensorFlow, and cloud ML platforms. Successfully deployed 12 ML models generating ₹12 Cr revenue impact. Specialized in NLP, recommendation systems, and time series forecasting. Strong track record of translating business requirements into scalable ML solutions with measurable ROI.

CORE TECHNICAL COMPETENCIES

****ML/AI:**** TensorFlow, PyTorch, scikit-learn, XGBoost, LightGBM, Keras, NLTK, spaCy, Hugging Face
****Languages:**** Python (6+ years), R, SQL, Scala
****Cloud ML:**** Google Cloud AI Platform, AWS SageMaker, Databricks, Azure ML
****Data Tools:**** pandas, NumPy, Matplotlib, Seaborn, Plotly, Tableau
****Big Data:**** Apache Spark, Hadoop, Hive, Kafka
****Databases:**** PostgreSQL, MongoDB, Cassandra, DynamoDB, Redis
****Testing & MLOps:**** Weights & Biases, MLflow, Model Registry, Continuous Integration

PROFESSIONAL EXPERIENCE

****Senior ML Engineer****

****InnovateTech AI Solutions**** | Bangalore, Karnataka | July 2022 – Present | 2 years 5 months

Leading ML platform for customer analytics and predictive insights serving 200+ enterprise clients

- ****ML Model Development:****

- Built 12 production ML models (classification, regression, clustering); average accuracy 89.2%
- Developed customer lifetime value prediction model; improved marketing ROI by 38%
- Implemented anomaly detection system identifying fraudulent transactions with 96.3% precision
- Created personalized recommendation engine using collaborative filtering; increased user engagement by 32%

- ****Data Pipeline & Infrastructure:****

- Designed ETL pipeline processing 5TB daily data using Apache Spark; reduced processing time from 6 hours to 28 minutes
- Implemented feature store enabling data reuse across 8 different ML models
- Built real-time inference service on Google Cloud Platform; handles 200K predictions/minute
- Automated model retraining pipeline; deployed 40+ model versions with zero production incidents

- ****Model Optimization & Deployment:****

- Reduced model inference latency by 55% through quantization and model compression techniques
- Implemented A/B testing framework; ran 25+ experiments validating model improvements
- Achieved 94.5% model accuracy improvement through feature engineering and hyperparameter tuning

- Set up monitoring dashboards alerting on data drift and model degradation

- **Team Leadership:**

- Mentored 2 junior ML engineers; both promoted within 18 months
- Published 5 technical blog posts on Medium (4,200+ views)
- Presented at 2 ML conferences: "Scaling ML in Production" (200+ attendees), "Real-time Inference Systems"

Key Metrics: 12 models deployed, 89.2% avg accuracy, ₹12 Cr revenue impact, 96.3% fraud detection precision, 38% ROI improvement

Data Scientist

AnalyticsFirst Consulting | Delhi, India | March 2021 – June 2022 | 1 year 4 months

- Developed 6 predictive models for retail clients; deployed to production
- Conducted exploratory data analysis on 40+ datasets
- Improved model accuracy from 76% to 88% through feature engineering
- Created automated reporting system saving 30 hours/month

Junior Data Analyst

DataInsights Corp | Bangalore, Karnataka | September 2020 – February 2021 | 6 months

- Analyzed business metrics and created dashboards in Tableau
- Performed statistical analysis on customer behavior data

EDUCATION

Master of Science in Data Science | IIIT Bangalore | Graduated: August 2020 | CGPA: 3.84/4.0

Bachelor of Technology in Electronics | Delhi Institute of Technology | Graduated: May 2018 | CGPA: 3.68/4.0

CERTIFICATIONS

- **TensorFlow Developer Certificate** | Google | Issued: May 2023 | No expiration
- **AWS Certified Machine Learning - Specialty** | Amazon Web Services | Issued: November 2022 | Expires: November 2024
- **Deep Learning Specialization** | Coursera (Andrew Ng) | Completed: March 2022
- **Advanced SQL for Data Analysis** | DataCamp | Completed: January 2021

AWARDS & RECOGNITION

1. **"ML Engineer of the Year" 2023** | InnovateTech AI Solutions
2. **Best Research Paper** | IIIT Data Science Symposium 2020
3. **Kaggle Competition Winner** | Participated in 8 competitions, won 2
