

RESUME 3: BACKEND ENGINEER (NEW)

****ROHAN MISHRA****

Mumbai, Maharashtra 400002 | +91-97123-65432 | rohan.mishra@email.com |
linkedin.com/in/rhanbackend | github.com/rohancode

PROFESSIONAL SUMMARY

Backend Engineer with 4.2 years of experience building scalable microservices and distributed systems. Expert in Python, Go, and SQL optimization. Developed backend systems processing 2M+ transactions daily with 99.98% reliability. Strong track record of performance optimization and architectural improvements. Seeking backend architect role at high-scale fintech platform.

TECHNICAL SKILLS

****Languages:**** Python (5+ years), Go, Java, SQL, Bash, YAML
****Frameworks:**** Django, FastAPI, Flask, Gin (Go), gRPC
****Databases:**** PostgreSQL (advanced), MySQL, DynamoDB, Elasticsearch, Redis
****Microservices:**** Kafka, RabbitMQ, Event-driven architecture, Saga pattern
****APIs:**** RESTful, GraphQL, gRPC, OpenAPI/Swagger
****Cloud:**** AWS (EC2, RDS, S3, Lambda, S3), GCP basics
****Containers:**** Docker, Kubernetes, Docker Compose
****Testing:**** pytest, unittest, integration testing, load testing
****Monitoring:**** Prometheus, Grafana, Datadog, ELK Stack

PROFESSIONAL EXPERIENCE

****Senior Backend Engineer****

****FinanceFlow Systems**** | Mumbai, Maharashtra | March 2023 – Present | 1 year 9 months

Building payment platform processing ₹800 Cr+ annual transactions

- ****Microservices Architecture:****

- Architected 15 independent microservices; improved time-to-market by 45%
- Implemented event-driven architecture using Kafka; processing 1.5M+ events/day with 99.98% reliability
- Designed saga pattern for distributed transactions; 99.96% success rate
- Built service mesh reducing inter-service latency by 35%

- ****Backend Development:****

- Developed 30+ REST APIs using FastAPI; handling 600K requests/day with <180ms latency
- Implemented caching layer using Redis; improved response time by 58%
- Built background job processing system handling 100K+ jobs/day
- Implemented circuit breaker and retry logic; reduced cascading failures by 85%

- ****Database Optimization:****

- Optimized PostgreSQL queries reducing execution time by 52% through indexing and query planning
- Designed database sharding strategy; increased throughput by 250%
- Implemented connection pooling; increased concurrent connections from 150 to 2,000
- Set up automated backups and failover; RTO < 30 seconds

- ****Performance & Scalability:****

- Reduced API response latency from 500ms to 210ms through optimization
- Implemented auto-scaling policies; scaled from 8 to 120 instances during peak load
- Reduced deployment time from 40 minutes to 6 minutes

- Designed system handling 5x traffic spike without degradation

- **Team Leadership:**

- Led team of 5 backend engineers; improved code quality by 40%
- Mentored 2 junior engineers; 1 promoted to mid-level
- Established architectural review process; prevented 8 critical architectural issues

Key Metrics: 30 APIs, 600K req/day, 99.98% uptime, 58% response time improvement, 250% throughput increase

Backend Engineer (Mid-Level)
TechPlatforms India | Bangalore, Karnataka | August 2021 – February 2023 | 1 year 7 months

- Developed 12 microservices using Python and Go
- Optimized database performance; improved query time by 45%
- Mentored 1 junior engineer

Junior Backend Engineer
WebServices Solutions | Bangalore, Karnataka | June 2020 – July 2021 | 1 year 2 months

- Developed REST APIs using Django and Flask
- Fixed 120+ bugs
- Participated in code reviews

EDUCATION

Bachelor of Technology in Computer Science and Engineering | IIIT Delhi | Graduated: May 2020 | CGPA: 3.71/4.0

CERTIFICATIONS

- **AWS Certified Solutions Architect - Associate** | Issued: October 2022 | Expires: October 2024
- **Advanced Python Programming** | Real Python | Completed: June 2022
- **Microservices Architecture** | Linux Academy | Completed: April 2021

AWARDS

1. **"Backend Engineer of the Year" 2023** | FinanceFlow Systems
2. **Best Architecture Decision** | Technical Forum
