

RESUME 5: DEVOPS ENGINEER (NEW)

****HARSH KUMAR****

Delhi, India 110001 | +91-99876-45678 | harsh.kumar@email.com |
linkedin.com/in/harshdevops | github.com/harshinfra

PROFESSIONAL SUMMARY

DevOps Engineer with 3.5 years of infrastructure automation and CI/CD expertise. Expert in Kubernetes, Terraform, and AWS. Architected infrastructure for 3 SaaS platforms serving 15M+ users. Reduced deployment time by 87%, infrastructure costs by 40%, and improved system uptime to 99.98%. Strong background in infrastructure-as-code and cloud-native technologies.

TECHNICAL SKILLS

****Cloud:**** AWS (EC2, RDS, S3, Lambda, CloudFront), GCP basics
****Containers:**** Docker, Kubernetes (advanced), Helm, EKS
****IaC:**** Terraform (4+ years), CloudFormation, Ansible
****CI/CD:**** Jenkins, GitHub Actions, GitLab CI, ArgoCD
****Monitoring:**** Prometheus, Grafana, CloudWatch, ELK Stack
****Scripting:**** Python, Bash, Go
****Databases:**** PostgreSQL administration, MySQL, DynamoDB
****Security:**** SSL/TLS, IAM, secrets management, VPN, network security

PROFESSIONAL EXPERIENCE

****Senior DevOps Engineer****

****CloudOps Pro**** | Delhi, India | September 2022 – Present | 1 year 3 months

Managing infrastructure for 3 enterprise SaaS platforms

- ****Infrastructure Architecture:****

- Designed AWS infrastructure for 2 major SaaS platforms; achieved 99.98% uptime

- Implemented multi-AZ deployment with auto-scaling; handles 50x traffic spikes

- Architected Kubernetes cluster with 40 nodes managing 300+ pods

- Designed disaster recovery; RTO < 45 minutes, RPO < 10 minutes

- ****CI/CD & Automation:****

- Designed GitOps pipeline using GitHub Actions and ArgoCD

- Reduced deployment time from 60 minutes to 8 minutes (-87%)

- Implemented automated testing gates; 100% deployments have unit tests (>85% coverage)

- Automated infrastructure provisioning using Terraform; reduced manual work by 95%

- ****Monitoring & Reliability:****

- Implemented Prometheus + Grafana monitoring; 120+ custom metrics

- Set up ELK stack processing 3TB logs/day

- Created 35+ alerts reducing incident detection time by 70%

- Reduced MTTR from 90 minutes to 25 minutes

- ****Cost Optimization:****

- Optimized AWS infrastructure reducing costs by 40% (₹12 Cr annually)

- Implemented resource right-sizing and reservation strategies

- Achieved 3:1 cost efficiency improvement

- ****Team Leadership:****

- Mentored 2 junior DevOps engineers

- Developed infrastructure runbooks reducing onboarding time

****Key Metrics:**** 99.98% uptime, -87% deployment time, -40% costs, 70% faster incident detection, 95% automation

****DevOps Engineer (Mid-Level)****

****InfraScale Solutions**** | Bangalore, Karnataka | March 2021 – August 2022 | 1 year 6 months

- Managed AWS infrastructure for 2 products
- Set up CI/CD pipelines
- Reduced deployment time by 60%

****Junior DevOps Engineer****

****TechOps Corp**** | Bangalore, Karnataka | August 2020 – February 2021 | 7 months

- Assisted with infrastructure management
- Learned Kubernetes and Docker

EDUCATION

****Bachelor of Technology in Information Technology**** | Delhi Institute of Technology | Graduated: May 2020 | CGPA: 3.68/4.0

CERTIFICATIONS

- ****AWS Certified Solutions Architect - Professional**** | Issued: May 2023 | Expires: May 2025
- ****Certified Kubernetes Administrator (CKA)**** | Linux Foundation | Issued: October 2022 | Expires: October 2025
- ****HashiCorp Certified: Terraform Associate**** | Issued: July 2022 | No expiration

AWARDS

1. ****"DevOps Engineer of the Year" 2023**** | CloudOps Pro
2. ****Speaker**** | KubeCon India 2023 | "Infrastructure as Code Best Practices"
